ORBITECTURE

INTRODUCING ORBITECTURE

THE ACADEMIA-INDUSTRY COUNCIL

An initiative by Gallant Orbit

NEW DELHI, INDIA / JULY 2026

Designing the bridge between learning and practice.

Gallant Orbit introduces **Orbitecture**, an academia-industry design initiative connecting architecture education with the knowledge, people and practical realities of the built environment.

EDUCATION + PRACTICE + COLLABORATION

EDITORIAL CONCEPT VISUAL / NOT AN EVENT PHOTOGRAPH

NEW DELHI, JULY 2026 - Gallant Orbit has introduced **Orbitecture - The Academia-Industry Council**, a collaborative initiative intended to bring academic institutions, design professionals and industry partners into closer dialogue. Its mission is to make learning in architecture, interiors and the wider AEC sector more connected to professional practice.

Orbitecture is conceived as a platform for sharing knowledge, opening conversations and developing pathways for practical exposure. By connecting educators and students with architects, designers and practitioners, it seeks to help emerging talent understand the decisions, disciplines and responsibilities behind real projects - beyond what can be taught in a classroom alone.

Education builds knowledge. Industry gives it context.

JULY 2026

THE PURPOSE

A more connected design ecosystem

The initiative is built around a simple premise: stronger connections between academia and industry can help students gain perspective, educators stay connected to evolving practice, and professionals contribute knowledge that prepares future generations for meaningful work.

FOUR CORE AREAS OF FOCUS

01
ACADEMIC COLLABORATION

Build relationships that support dialogue between institutions and the AEC sector.

02
KNOWLEDGE EXCHANGE

Encourage the sharing of perspectives, methods and emerging design practices.

03
INDUSTRY EXPOSURE

Create stronger connections between learning and practical project environments.

04
MENTORSHIP & READINESS

Support professional awareness, confidence and real-world understanding.

FROM CLASSROOM PERSPECTIVE TO PRACTICAL UNDERSTANDING

HOW THE INITIATIVE WILL DEVELOP

A platform for partnership – not a one-off event

Orbitecture intends to explore institution-led conversations, professional exchanges, mentoring connections and experiential learning opportunities with interested partners. Specific events, programmes, locations and participation arrangements will be announced separately as collaborations are confirmed.

ABOUT GALLANT ORBIT

Gallant Orbit is an integrated AEC and design-led solutions ecosystem spanning architecture, interiors, project management and turnkey execution. Orbitecture extends its collaboration philosophy into design education.
