DIVISION LAUNCH / SIGNATURE LUXURY

Gallant Orbit launches PRIX.

A dedicated residential division bringing bespoke design, considered materials and a more personal luxury experience to the spaces people call home.

PRIX / RESIDENTIAL DESIGN PERSPECTIVE

NEW DELHI, INDIA / APRIL 2026

Gallant Orbit Solutions Pvt. Ltd. has announced **PRIX**, a signature luxury residential division dedicated to creating homes that reflect the people who live in them. Part of the Gallant Orbit business ecosystem, PRIX brings a distinct focus to premium residences, where thoughtful spatial planning, personal expression, material selection and fine detailing come together in one cohesive vision.

The launch builds on Gallant Orbit's architecture, interiors and project-delivery capabilities. PRIX is positioned for homeowners who seek more than a beautiful finish: a considered living environment, carefully developed from the first design conversation through coordinated execution and handover.

An individual vision of luxury.

PRIX places the resident - not a passing trend - at the centre of the design process.

01 / PERSONAL BY DESIGN

Spaces that start with listening

PRIX approaches each home as an expression of its occupants: their routines, priorities, collections and sense of comfort. The result is not a fixed design formula, but a carefully composed response to a specific way of living.

02 / MATERIALITY WITH INTENT

Details that reward a closer look

Material palettes, lighting, texture and bespoke elements are considered together, balancing tactile richness with daily function and lasting character.

03 / COORDINATED DELIVERY

From concept to lived reality

Working within Gallant Orbit's wider design and execution ecosystem, PRIX connects creative intent with the technical planning and project coordination needed to deliver a cohesive residential experience.

DESIGN CONCEPT / ILLUSTRATIVE VISUAL

THE PRIX POINT OF VIEW

Luxury is most powerful when it feels personal.

ABOUT GALLANT ORBIT

Gallant Orbit Solutions Pvt. Ltd. is an integrated architecture, engineering and construction (AEC) ecosystem, bringing together architecture, interiors, project management and turnkey execution. Its specialist divisions serve distinct client needs under a common design-and-delivery approach.
